

THE DOULA SERVICES NETWORK STORY

About The Doula Services Network

After having a wonderful experience with a doula that we thought we did not need. She quickly showed how invaluable she was in the birth of our two beautiful boys. Impressed by this awesome experience, we wanted to let other expectant parents know about the benefits of having a doula, so we created **The Doula Services Network**.

The Doula Services Network is a place for future parents to find information about doula services. To find and hire doulas, to locate and attend local childbirth classes or to simply learn about this wonderful journey of becoming parents.

It's also a great place for budding doulas to learn more about becoming a doula and for experienced doulas to promote and grow their business. Doulas can add their listing to our network to find new clients as well as Doula Trainers, Doula Organizations and Childbirth Educators. In addition they can also post their upcoming training workshops and classes to our Training and Events Calendar (Lara's Calendar).

Our goal is to create a resource that can help future parents achieve the birth they desire.

Come join us.

Sincerely,

Larisa and Calvin Cox
